# Study Finds the Typical American's Diet Will Make You Sick

By Mike Adams May 21, 2012

Thinkstock

Earlier this week the Center of Disease Control published a new report stating that although Americans are living longer these days, they are **still getting fatter**.

It's no secret that the American population has terrible diets and eating habits than any other country in the world. It seems that over the course of the last 20 years it has become a population of animals trying to sustain itself on convenience store fare and **fast food**.

- Boosts Personality!
- Gives body essential sugars!

## How soon is too soon?

Not soon enough. Laboratory tests over the last few years have proven that babies who start drinking soda during that early formative period have a much higher chance of gaining acceptance and "fitting in" during those awkward pre-teen and teen years. So, do yourself a favor. Do your child a favor. Start them on a strict regimen of sodas and other sugary carbonated beverages right now, for a lifetime of guaranteed happiness.
